ANNUAL REPORTS

OF THE

TOWN OF FALMOUTH.

1871

FINANCIAL
AND
S. SCHOOL COMMITTEE REPORTS,
OF THE
TOWN OF FALMOUTH,
FOR THE YEAR ENDING MARCH 1, 1871.

TO THE INHABITANTS OF FALMOUTH.

The Annual Report of Receipts and Expenditures for the year ending March 1st, 1871, is herein respectfully submitted.

By examining the Report you will find our Liabilities to be \$18,424.36. Availabilities, \$13,110.54, showing the Debt of the Town to be \$5,313.82.

The amount of Bills against the Town not rendered, with the exception of the Bills of the Bowe case, will be about balanced by the unpaid highway tax.

The Report of the account with the Alms House may not look quite as favorable as last year, but owing to a mistake in printing, the account appeared more favorable last year than it really was. We believe the management of affairs on the Farm the present year, will compare favorably with that of years past, and that the Inmates have been kindly treated and cared for.

Believing it for the interest of the Town, we would recommend a different method of raising money, and repairing the highways, than the old and expensive way of assessing a direct Highway Tax, and allowing each tax payer to work, or loaf out his tax, with a hoe and wheelbarrow.

In our opinions, one or more good Road Commissioners should be chosen by the Town, and suitable tools and teams provided. By so doing, money might be saved, and our roads greatly improved.

B. F. HALL,
JOSEPH NEWMAN,
COLUMBUS KNIGHT. } *Selectmen of
Falmouth.*

FINANCIAL.

MONEY RAISED MARCH 7, 1870.

For Schools.....	\$2,500.00

GENERAL REMARKS.

Fellow Citizens:—

We hope you fully realize that your committee have labored the past year, under many disadvantages. In opposition to the wishes of the people, empowered by act of Legislature, to employ teachers, and being desirous to employ such as the several districts preferred, it frequently happened that no teacher was engaged for a school, until it was nearly time for it to commence; and as good teachers are not always to be obtained at short notice, we employed the best that we could, under the existing circumstances.

Yet notwithstanding the many disadvantages attendant, upon putting in operation the new law, the services of many good teachers have been secured; our schools have made creditable improvement, and with the exception of No. 12, in Summer, and Nos. 4, 7 and 9, in Winter, which were somewhat deficient in order and discipline, have been satisfactorily managed, and in most instances, a good degree of interest was manifest. In our opinion, the town acted wisely last year, in increasing the usual amount of school money, and thus lengthening the terms of school. We think that the last three or four weeks of our short terms of school, (if the time is well spent,) is of vital importance, and much is accomplished in that time; therefore, we sincerely hope that our schools may not be shortened by vote of the town, but if any change is made in that respect, it may be to increase, rather than diminish the amount of money raised.
