## DESCRIPTION OF OUT-STANDING NOTES.

Note to Henry P. Dewey, dated Jan. 10, '96, given for twelve months with interest at rate of $4\frac{1}{2}$ per cent.,	\$1,000 00
Note to Swan & Barrett, dated Mar. 15, '95, on demand,	2,000 00
Note to Swan & Barrett, dated Feb. 8, '96, on demand,	3,000 00

The demand loans held by Swan & Barrett were bearing interest at the rate of 4 per cent. per annum until Jan. 9, last, when they advanced the rate to 5 per cent., owing to the higher rates prevailing in the money market. These gentlemen assure me that the rate will be reduced to 4 per cent. again just as soon as the present stringency is relaxed.

# SCHOOL REPORT.

---

Whole number of scholars, 436.

Total length of each school, 31 weeks.

*To the Citizens of Falmouth :*

It becomes our duty to take a retrospective survey of our schools for the past year. It is with pleasure that we can report them a success, and we feel justified in saying that money raised for their support has been given profitable returns. None but experienced teachers have been employed, and, in most instances, those who have had previous experience in town, and their work proved satisfactory.

It has been recommended from time to time by former Supervisors that "A Course of Study for Ungraded Schools" be outlined and adopted. We have tried the experiment the past year, and, while we are not prepared to say that it has been a perfect success, yet we are of the opinion that it is a step in the right direction and that another year will demonstrate greater results. One great fault in the past in our common schools, has been the eagerness of pupils to take up higher branches before the common branches were thoroughly mastered, and parents have encouraged this error.

Two written examinations have been given the second and third year grades during the year, and the scholars have done themselves and their teachers credit. At the last examination five ranked 100 in arithmetic and language and only ten fell below 50% : the general average being 80%.

We deem it advisable as a matter of encouragement to insert the names of those who have not been absent for the year in this report.

The advisability of maintaining one or more free high schools will be brought before you for your consideration.

While other towns have been taking advantage of this law for several years, the tax payers of our town have been putting their hands in their pockets and helping pay for their support without asking for an equivalent. Can we afford to do this? The time has come when a high school, free to all, seems a necessity. Let us have it and keep our children within the borders of our own town, until they get beyond what we can give them.

Parents, we again urge upon you to bear in mind the responsibility that rests upon you. Visit our schools oftener. We are always glad to see you.

In conclusion, we wish to thank the many who have co-operated with us in this work; and while we cannot cater to the wishes of each individual, yet we have tried to conscientiously perform the duties incumbent upon us in such a manner that the good of the majority and the welfare of our public schools should be promoted.

Respectfully submitted,

DANIEL W. LUNT, *Supt.*
